

Our EdReports Scorecard*

HMH® is excited to share our **EdReports results** with you. These results underscore our commitment to excellence in developing research-based instructional materials that foster empowering learning environments, support teachers, and drive student growth. **Check out each full report at the links below.**

PROGRAM	GRADE LEVELS	DESCRIPTION	GATEWAY			EdReport
			1	2	3	
 	K–6	<i>HMH Into Reading™</i> was built from the ground up to leverage the latest in learning science to ensure every student has access to a proven path to success. Differentiated by design, the program supports teachers in developing a culture of reading and growth, while providing direct and explicit instruction across all five essential components of reading.	●	●	●	edreports.org/reports/overview/into-reading-2020
 	6–12	<i>HMH Into Literature™</i> uses a combination of classic and contemporary texts to build intellectual stamina and foster independence while developing skilled readers, writers, thinkers, and communicators.	●	●	●	edreports.org/reports/overview/into-literature
 	3–8*	<i>HMH Into Math™</i> emphasizes the importance of the “why” behind the “how” with a research-based learning model that deliberately links the conceptual to the procedural with application embedded throughout.	●	●	●	edreports.org/reports/overview/hmh-into-math-2020
	K–5	Based on research funded by the National Science Foundation, <i>Math Expressions</i> is a proven curriculum that helps students make sense of math by exploring, discussing, and demonstrating their understanding of key concepts.	●	●	●	edreports.org/reports/overview/math-expressions-2018

*These results are based on reports published as of February 2020. Results coming soon for HMH *Into Math* K–2 and HMH *Into AGA™* 9–12.
