

NEW DIGITAL RESOURCES

New digital tools enhance the educational experience and encourage students to take charge of their own learning.

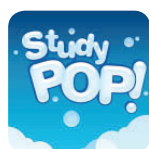

Online access to **Math Expressions** program resources includes Practice, Reteach, Challenge, Activity Cards, Rtl, Fluency Builders, Inquiry Based Tasks, Games, Personal Math Trainer Lesson Checks, and Activity Center Planning Guide.

Personal Math Trainer® Powered by Knewton™ provides an online assessment and personalized learning system for students.

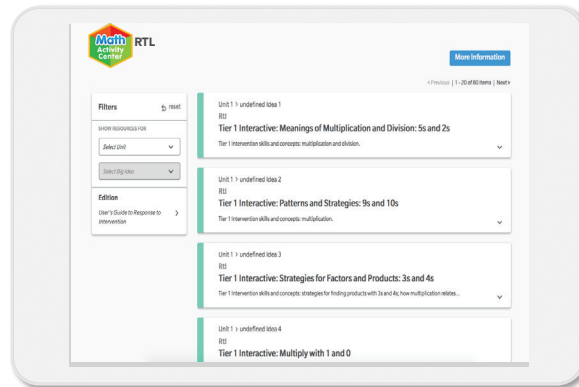

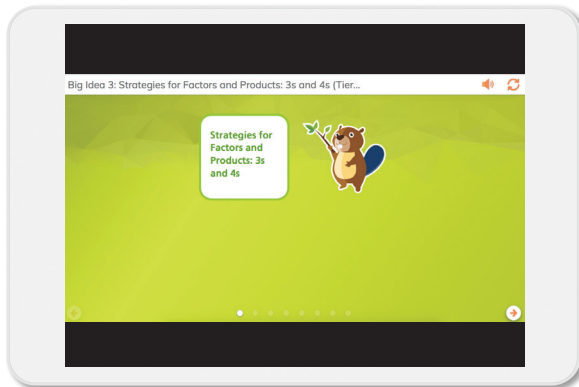

Engaging games correlate to *Math Expressions* lessons and provide alternative practice and challenge for all learners.

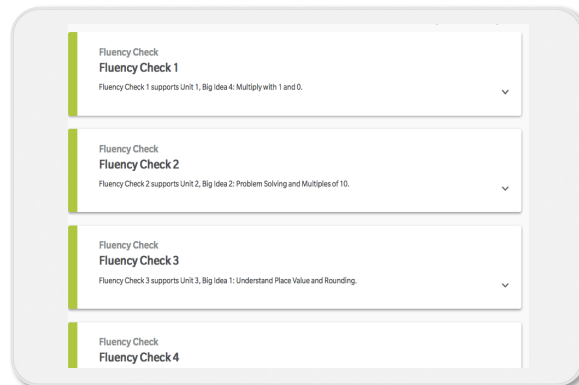

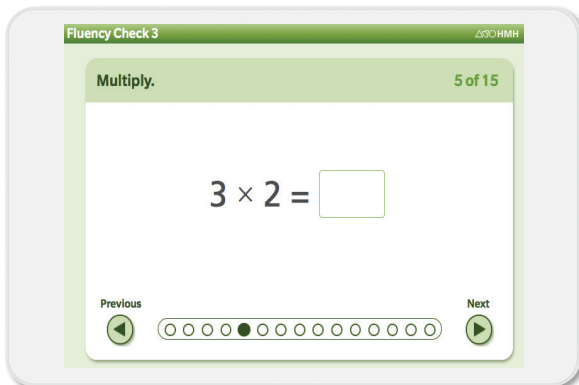

StudyPOP! is a fun and interactive digital charades IOS® app that includes *Math Expressions* vocabulary words to help students practice and develop mathematical language.

The *HMH Player®* app seamlessly merges technology with *Math Expressions* instruction, expanding the way you teach and how your students will learn.

The Interactive Response to Intervention provides Tier 1 and 2 Rtl through tutorial videos followed by engaging practice activities and games. Tier 3 Rtl activities are also available here.

The Online Fluency Builder is designed to support students' mastery of basic facts through interactive checks and practice. It is accessible at any time through the Online Activity Center.
